The transaction code abbreviations that you can use in the SAP interface when working with the SAP Solution Manager connector.

Table 1. SAP Solution Manager transaction codes

Transaction Code	Description
ALRTINBOX	Displays the alert inbox.
SOAMANGER	Opens and activates the Sap_Solman_Alert_Inbox web service.
SRT_UTIL	View the SOA manager logs.
SOLMAN_WORKCENTER	Opens the SAP Solution Manager interface in a browser.
SM59	Displays the entire output interface.
SE38	Executes the Advanced Business Application Programming (ABAP) code. (The equivalent ServiceNow code is ZTEST_SNOW_CONNECTOR.)
MAI_TOOLS	Displays the alarm tool.
SE16	Displays the interface debugging table (ZSNOW).
