

Find events that are not matched to rules

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

Find events that are not matched to any rules, and determine if it is necessary to create event rules to manage them.

Before you begin

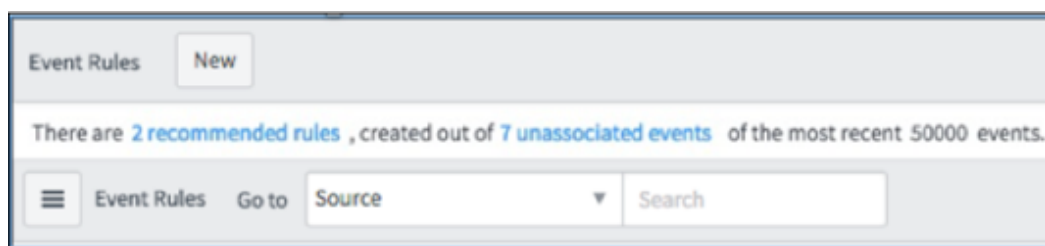

Role required: evt_mgmt_admin

About this task

This task describes how to find events that are not matched to rules.

Procedure

1. Navigate to All > Event Management > Rules > Event Rules.
2. Near the top of the form, click the link for events or grouped events that are not mapped to rules.

What to do next

Create an event rule. For example, event rules are useful for managing events that occur regularly.
