

View event rules

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

You can view all event rules on the Event Rules list.

Before you begin

Role required: evt_mgmt_admin

Procedure

Navigate to All > Event Management > Rules > Event Rules.

Table 1. Event Rules list

Field	Description
Name	The event rule name.
Override default binding	Legacy binding criteria. If, in the Bind section criteria have not been specified or if the specified bind criteria are not matched, then the legacy binding criteria are considered.
Order	Order in which an event rule is evaluated when multiple rules are defined for the same type of event. Event rules are evaluated in ascending order.
Source	Event monitoring software that generated the event, such as SolarWinds or SCOM. Maximum length: 100 characters.
Updated	Update date and time for the rule.

Note:

You can filter the Event Rule list to display the required subset of the information. However, if you create a favorite link after filtering, when the link is clicked the Event Rule list does not display the correct filter.
