

View primary alerts associated with a service

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

View the primary alerts associated with a service to help troubleshoot issues with the service.

Before you begin

Role required: evt_mgmt_admin

Procedure

1. Navigate to Workspaces > Service Operations Workspace.
2. From the left navigation bar, select the Service Dashboard icon: .

The Service Dashboard page appears.

Note:

The application services that appear in the Service Dashboard are those added to the Impact Filter Services list. For more information, see Add application services for impact calculation.

3. Select a service tile.

A pop-up window displays the business criticality and severity of a service.

4. Select Service Details.
By default, the Details tab is selected.
5. Select the Related records tab.
6. From the left pane, select Related Alerts.
