

Configure alert metrics

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

Configure the metrics you want to be visible for Service Operations Workspace alerts or use the metrics configured with the base system to focus on relevant data for faster troubleshooting.

Before you begin

Ensure you have the Metric Intelligence (sn_metrics_ng) plugin installed.

Role required: evt_mgmt_admin

Procedure

1. Navigate to All > Event Management > Administration > Metrics View Configuration.
