

Delete integration

- Release version: Australia
-
- Updated May 5, 2026
-
- ⌚ 1 minute to read

Delete integration allows you to permanently remove a connector integration from your system. This feature helps you maintain a clean and organized system by eliminating unused or obsolete integrations, freeing up resources and reducing potential clutter.

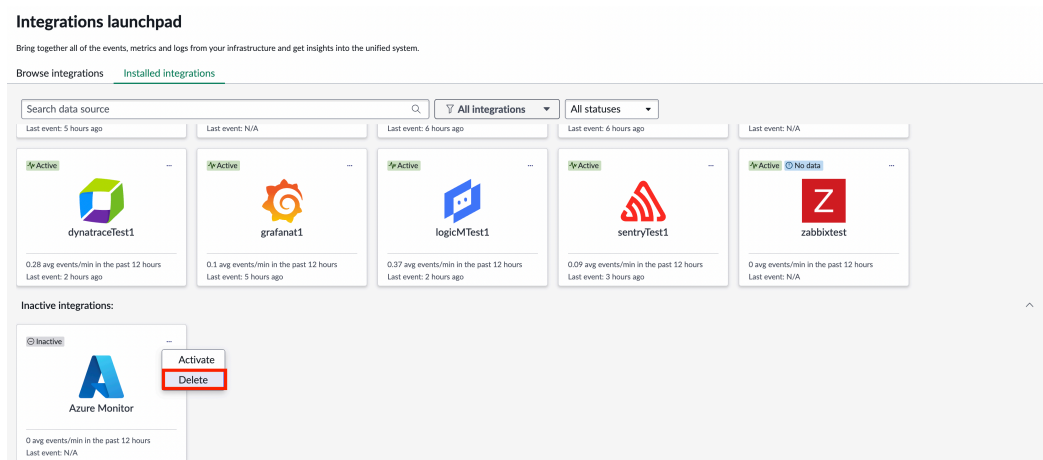

Before you begin

Ensure the integration is deactivated.

Role required: evt_mgmt_admin

Procedure

1. Navigate to Workspaces > Service Operations Workspace.
2. From the bottom of the navigation pane, select the AIOps configuration center icon . The ITOM AIOps configuration center page appears. The configuration center is a centralized workspace. Use it to configure and manage AIOps features from a single place.
3. On the ITOM AIOps configuration center page, under the Setup > Integrations section, select Manage Installed integrations.
4. Select the Installed integrations tab.
5. For the integration that you want to delete, select the Ellipses icon (⋮) and then select Delete.

6. On the confirmation window, select Delete.
The integration is deleted.
