

Place an alert in the Acknowledged state

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

Placing an alert into the Acknowledged state indicates that the alert has issues that need to be addressed.

Before you begin

Role required: evt_mgmt_admin

Note:

The evt_mgmt_user role is view-only and does not have permission to perform this action.

Procedure

1. Navigate to Workspaces > Service Operations Workspace.
2. From the navigation bar, select the Express list icon .
3. Filter with Active alerts.
4. Select an alert.

Overview	Details	Related records	Metrics	Playbook
Alert
