

Filter the Express List display using attributes

- Release version: Australia
-
- Updated March 12, 2026
-
- ⌚ 1 minute to read

Filter the Express List display by text, number, and date attributes using the interactive Express List filter panel. Create a targeted list of alerts to prioritize and focus on.

Before you begin

Role required: evt_mgmt_operator, evt_mgmt_admin

Procedure

1. Navigate to Workspaces > Service Operations Workspace.
2. In the primary navigation, select the Express List icon (.
3. From the Filters panel on the left side, select whether to filter to text, number, or date attributes depending on your filter type.

Filter attribute type	Action
Text	Find elements by name by typing the first few characters to display the elements that start with those characters. Then select the values that you want to view in the Express List
