Event Management plugin (com.glideapp.itom.snac) requires a separate subscription and must be activated by ServiceNow personnel. This plugin includes demo data and activates related plugins if they are not already active.

Before you begin

Role required: admin

About this task

To purchase a subscription, contact your ServiceNow account manager. The account manager can arrange to have the plugin activated on your organization's production and subproduction instances, generally within a few days.

If you don't have an account manager, decide to delay activation after purchase, or want to evaluate the product on a subproduction instance without charge, follow these steps.

Procedure

1. Navigate to All > System Applications > All Available Applications > All.
2. Select Request plugin to open the Activate Plugin form on Now Support.
3. On the Activate Plugin form, provide the following information.

Table 1. Activate Plugin form

Field	Description
What is your target instance	Select the instance that you want to activate the plugin on.
Which plugin would you like to activate	Select the name of the plugin to activate. Note:

Field	Description
	If the system doesn't list the plugin you want or if you're activating the plugin on an OEM or on-premise instance, select the Plugin I'm looking for is not listed check box and then enter the name of the plugin.
Select Maintenance Date and Time	Select the date and time to activate the plugin.

For example, see the following form to activate the Event Management plugin on an instance named SNC Instance.

4. Select Submit.

After the maintenance window, the system installs the plugin on your instance. To confirm the installation, go to the Installed tab in the Application Manager.
